

A Good Handyman Is Hard To Find

Small Jobs Go Begging in Today's Construction Boom

Rob Rogers of Rob's Jobs: lucky if you can find such a handyman.

By Steve Mitchell

The booming economy has brought prosperous times to the construction industry. It seems that almost everyone is either buying a new house or remodeling their current one. But the building boom seems to be squeezing out a staple of many communities: the local handyman, the neighborhood's Mr. Fixit who proudly proclaims "no job too small" on the side of his battered truck.

At least the common perception is that a good handyman is hard to find. If you know where to look, help is just a phone call away.
